

Evolution Credit is proud to announce that its DMC Debt Management Outsourced Services division achieved a Level 2 rating in its latest B-BBEE verification audit

Evolution Credit is proud to announce that its DMC Debt Management Outsourced Services division, which provides debt collection services to third-party clients, achieved a Level 2 rating in its latest B-BBEE verification audit.

This improvement in the rating means that DMC's clients can now claim 125% Procurement Recognition when utilising DMC's services.

The improved B-BBEE rating comes on the back of significant investment in the ongoing skills development of our people, as well as providing opportunities for unemployed youth through various learnership programmes and participation in the Youth Employment Service (Y.E.S).

Furthermore, each year DMC provides meaningful financial support to black-owned enterprises in our supplier value chain, assisting them in sustainably developing and growing their businesses.

Our corporate social investment initiatives are aimed at making sustainable contributions to the communities within which our business operates, whilst encouraging the involvement and participation of our people in CSI initiatives.

At Evolution Credit, we are proud of the contribution we are making to reducing inequality in our society.
